LEED VOC LEVELS ALLOWANCES

POLY-SIL 100% RTV Silicone Caulk

LEED CRITERIA

SEALANTS	CURRENT VOC LIMIT
ARCHITECTURAL	250g/L

Rule #1168 Adhesive and Sealant Applications

Definition (67)

Sealant is any material with adhesive properties that is formulated primarily to fill, seal, or waterproof gaps or joints between two surfaces.

Sealants include sealant primers and caulks.

EQc4.1:Low-Emitting Materials, Adhesives and Sealants

LEED VOC content of sealant and adhesive products:

If a sealant/adhesive is used to bond to similar or dissimilar substrates the sealant/adhesive VOC content below is allowed.

LEED SCAQMD Rule # 1168 >250g/L

LEED BAAQMDR Reg. 8 Rule 51 >250g/L
